

# CORPORATE AND BUSINESS

## PRACTICE AREA OVERVIEW

Boughton Law's Business Practice Group has experience and expertise in all aspects of corporate law.

### Areas of Expertise

Clients come to us seeking legal counsel during all stages of their business endeavors. Expect diligent advice on the incorporation and formation of your business as we help you select a suitable structure that facilitates the growth of your organization.

It is crucial for the ongoing success of a business to properly define the parameters of the relationships between shareholders, directors and business partners. To avoid future disputes, the team at Boughton Law can guide you through all corporate governance related matters right from the start.

For clients who are looking to expand their business via mergers and acquisitions, we negotiate and draft all transaction documents, financing arrangements and due diligence for share and asset purchases. By working directly with financiers, we are able to structure arrangements that leave no room for surprises.

In tough times, our team at Boughton Law can also guide you through dissolutions and wind-ups, liquidations, revivals, and restorations.

### Your Benefits

Rest assured that we share a common goal: creating certainty for your business and business relationships. Based on our experience with all sizes of organizations – ranging from start-ups to multinational corporations – and structures such as sole proprietorships and joint ventures, you find in us the right partner to help you plan for the unexpected.

As a client you can further benefit from our membership with Meritas, an international affiliation of law firms, should the need for legal advice on a global scale arise.

### At Boughton Law We Do Things Differently

Being a mid-sized, full service law firm located in the heart of Vancouver allows us to offer accessible, efficient and responsive legal counsel. Taking on a uniquely West Coast approach, we strive to make the complex simple and communicate clearly. Here you'll find lawyers who speak your language rather than the language of law.
